

Tui Tiny Homes

About Us

Tui Tiny Homes Limited was established in 2020 by Lloyd Darroch and Luke Stanley, the current directors of the company. They combined their extensive engineering and building skills to develop a truly unique tiny home design which provides a large living space on one level.

By utilizing an innovative slide-out system for the bedrooms, an owner can easily reduce the overall width to a drivable 3m. With this unique engineering feature, quality build, affordable price structure for all budgets and fantastic customer service, Tui Tiny Home have been sold to owners all over the north island. A true New Zealand success story!

Our Product

Our homes are constructed using super strong material, fully insulated and the home and trailer (excluding furniture and storage) are light enough to be towed by any large SUV. Tui Tiny Homes are constructed on a top quality Aakron Xpress trailer which is included in the price. Larger models over 42m² need to be transported on a truck.

We are proud to guarantee our product

Tui Tiny Homes comes with a ten-year structural and weather tightness guarantee to give you absolute peace of mind.

Custom Designs

We work with you to build your custom designed tiny home. We also have a range of designs which can be mirrored and/or flipped to accommodate the characteristics of your site. We have included a few examples below. Please visit our website, tuitinyhomes.co.nz for a complete list.
